Kids lessons (1 hr. One Kid \$35 or Two Kids together \$55) on simulator, and special friendly board and Kid's sails. This is an **introductory** lesson, one time only per year, two kids per instructor. Kids 8 to 15 years old and 60 lbs. minimum. **Advanced kid's lessons, private (1 hr. \$50).** **Advanced lessons 2 kids together (1 hr. \$35 each)** if instructor agrees. Teens (13 to 15) may take kids or adult classes at parent's discretion. Consult instructor to help make the decision. All equipment is included, EXCEPT WATER SHOES.

Three-day Beginner Program (9 hrs. \$200) After nine hours of instruction and practice over three days (with a simulator and on the water) you will be able to sail independently on a longboard (with centerboard). You will confidently up-haul, sail away, turn-around, tack, and sail upwind. This integrated windsurfing program teaches safety, efficiency, and correct windsurfing techniques. In addition you will be taught how to correctly rig a sail and board which is valuable when the time comes to select, purchase or rent gear from a windsurfing shop.

ONE-ON-ONE PERFORMANCE LESSONS
